

CARNARVON 2009 SEASON PREVIEW

For those that are unsure, Carnarvon is a small coastal town situated in the North West of WA (approx 1000km's north of Perth) with a population of 6700.

Like alot of small speedway clubs, they sometimes struggle to secure sponsorship to assist with the promotion of their events. This year Carnarvon Speedway Club is proud to announce that Healthway in conjunction with The Heart Foundation will once again be their major sponsor for the season. Healthway will be granted naming rights to the WASCFC Super Sedan State Title to be held in early May and also the North West Championships held over the long weekend in June of each year. The club will be promoting the Smokefree WA and Smarter than Smoking message throughout the 2009 season.

Back in July of this year the executive made their first enquiries into purchasing an electronic timing system through AMB.it. From there they pursued all avenues of funding availability and have just recently been granted \$15,000 towards the purchase of the new system through the Gascoyne Development Commission. This is a huge achievement for such a small club and they believe they will be the first club in the state (besides the Motorplex) to progress to this level with such advanced equipment.

Another Government supporter is the Department of Sport and Recreation who have also come on board again and always assist the club in their goal to develop. The grant includes funding towards travel to attend the WASCFC agm, training and accreditation courses, hosting of the state title and a state body meeting.

Carnarvon Speedway Club would like to take this opportunity to thank all 3 major sponsors for their continued support. The dedicated committee, drivers and members are all working together to ensure that another successful year of racing is set in place for 2009.
